

Brief Introduction

Complete Tech Industry specializes in providing oilfield equipments and Industry products for more than 20 years. During these years, We are focusing on R & D, innovation, production and supply metal and plastic parts as well as mold design, mold production.

1. Downhole drilling tools, Sucker rod, Rod Pump, fishing tools and other related products for Oilfield industries.

2. Castings, forgings, stampings and machining fabrications for the truck/automobile, rail, mining and heavy equipment, marine, offshore industries.

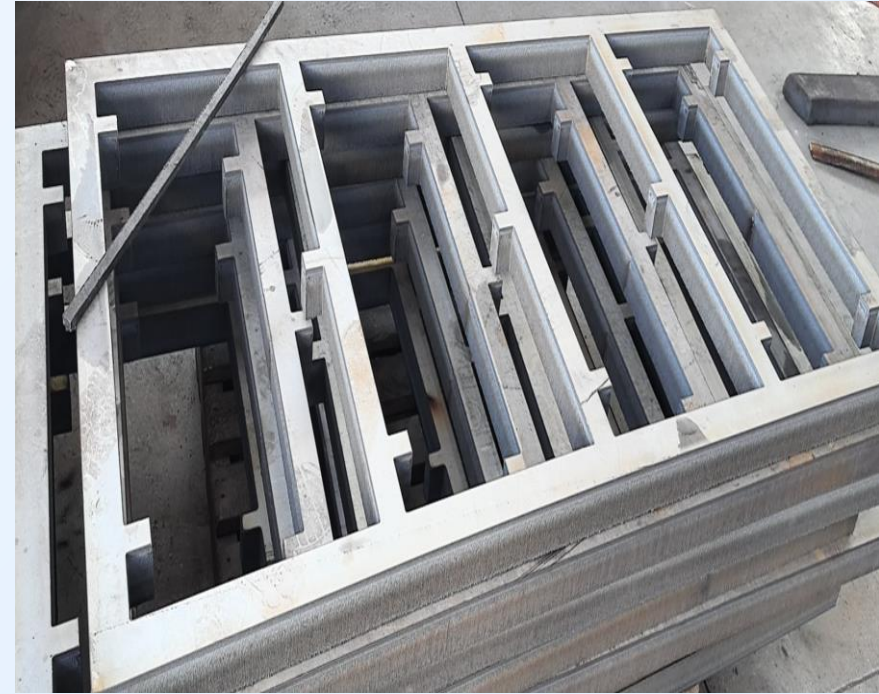

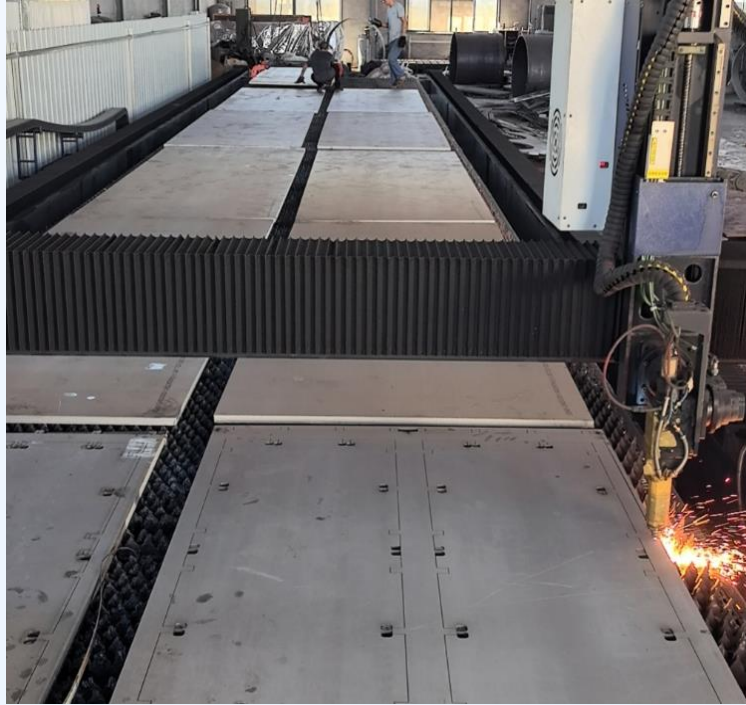

We have rich experienced sales and engineers to provide full-range services from the very beginning to the life time of our products.

We are one-stop OEM manufacturing facility that integrates R&D, design, and machining. We specialize in the design and production of permanent magnet drums, permanent magnet direct-drive and semi-direct-drive motors, and sheet metal structural components. Its products are primarily supplied to the coal, marine, wind power, cement, port machinery, semiconductor, and energy storage industries.

Machining Workshop

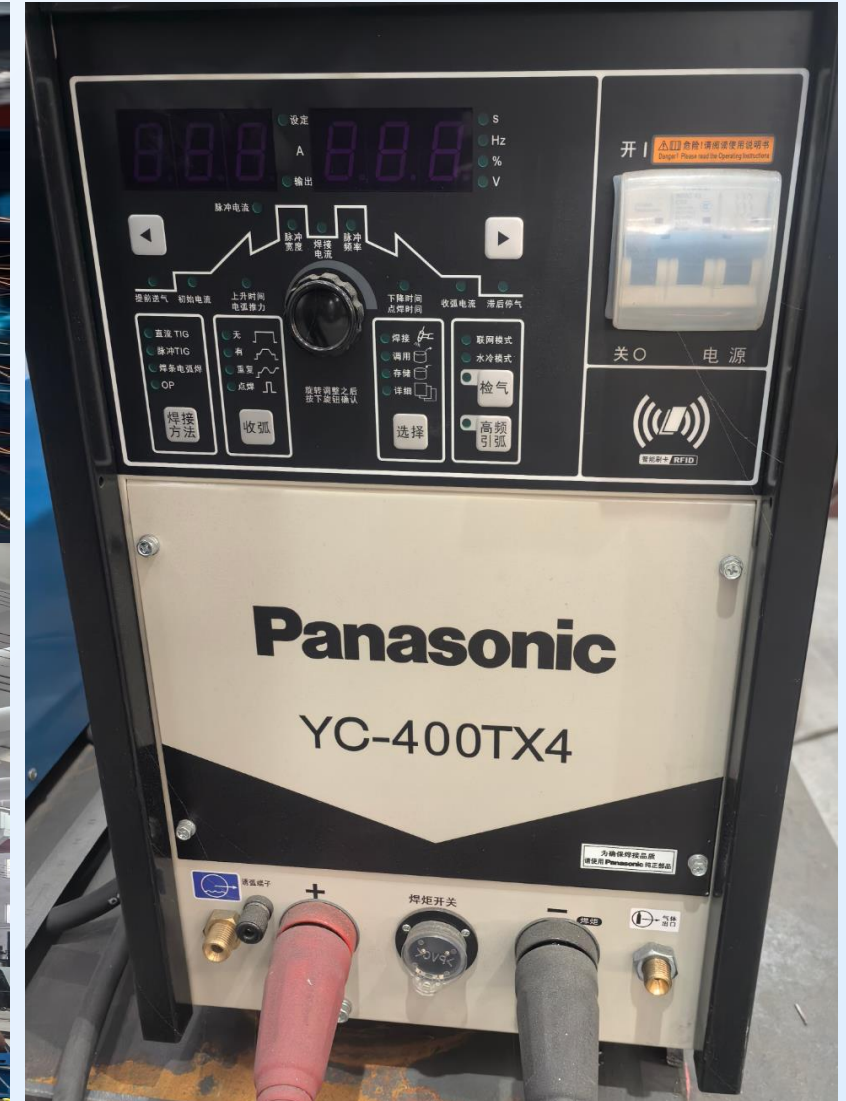

Cutting Machine

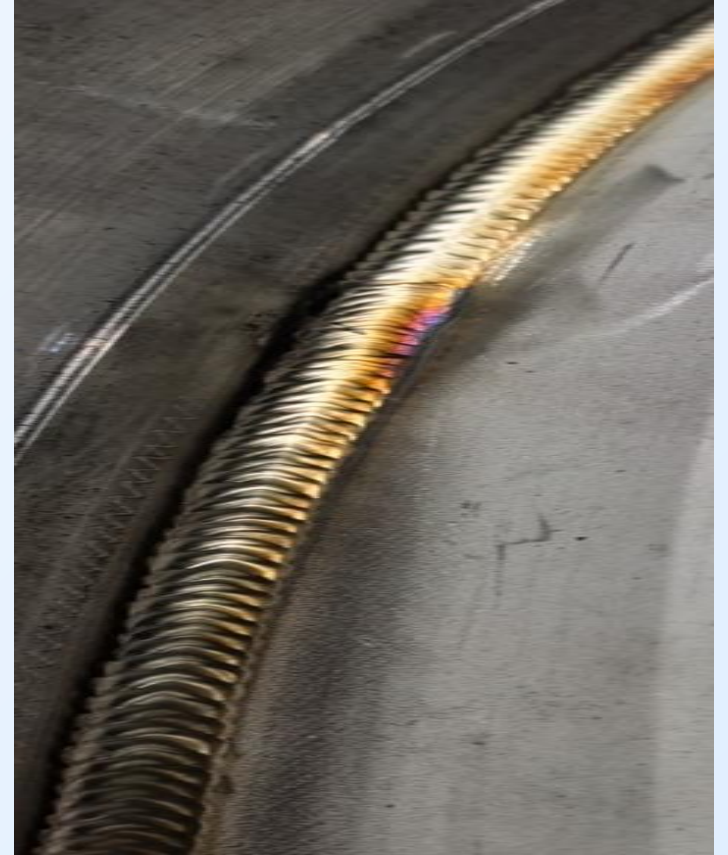

Laser Cutting Machine

30000W laser cutting machine can meet cutting work for metal sheet less than to keep high precision.

Welding Equipment

Machining Capacities

Multiple vertical CNC turning and milling machining centers and high-speed vertical lathes ensure the turning accuracy of all components
